Statement of the Board Chair

for the year ended 31 December, 2012

The mission of the International Institute of Tropical Agriculture (IITA) is to be the leading research partner facilitating agricultural solutions to overcome hunger, poverty and natural resource degradation throughout the tropics. The Board of Trustees is committed to provide governance, financial and programmatic oversight to ensure efficient and effective management of the Institute.

We are pleased to note the increase of \$24.2 million in grant revenue in 2012 compared to 2011. Total revenue amounted to US\$71.6 million (2011: US\$47.4 million) against expenditure of US\$69.1 million (2011: US\$46.7 million). Revenue and expenditures for 2012 include Window 1 and 2 transactions (\$4.6 million) of 'Other Participating Partners' in CRP 1.2 – Integrated Systems for the Humid Tropics. An extraordinary item in 2012 was the write off of an investment in U.S. Hospital Receivables of \$14.78 million. This has reduced the Institute's liquidity and reserves to levels below the CGIAR recommended benchmarks. A financial recovery plan has been instituted to return reserve levels to these benchmarks. The 2012 audited financial statements show an operating result of \$2.5 million positive change in net assets due largely to continuing implementation of leaner cost structure and frugal spending.

Over the past year, IITA's programs were brought into alignment with the CGIAR global research program portfolio. CRP 1.2 'Integrated Systems for the Humid Tropics', for which IITA is the lead centre, received approval in 2012. This CRP will progressively become the focal point of the Institute's Research for Development (R4D) programs. IITA is involved as a collaborating partner in eight other CRPs.

The Board of Trustees congratulates the management and the staff of IITA for the excellent research being conducted. We express our appreciation to Dr. Nteranya Sanginga, who in his first year as Director General, put together a new team, refreshed the Institute's strategy, and attracted new partners and funding. The Board welcomes Dr. Kenton Dashiell, DDG Partnerships and Capacity Development, Dr. Ylva Hillbur, DDG R4D, and Mr. Kwame Akuffo-Akoto, DDG Corporate Services, to the senior management team. We also express our deep appreciation to IITA's investors and partners for their contributions towards the laudable mission of the Institute.

Bruce Coulman

Chair, Board of Trustees

6 March, 2013

BOARD STATEMENT ON IITA RISK MANAGEMENT - 2012

The Center's Board of Trustees has responsibility for overseeing the effectiveness of the risk management system that IITA management has put in place to identify, manage and monitor significant risks to the achievement of IITA's business objectives, and to ensure alignment with Consultative Group on International Agriculture Research (CGIAR) principles and guidelines that have been adopted by all CGIAR Centres.

These risks include operational, financial and reputational risks that are inherent in the nature, *modus operandi* and location of IITA's activities including the new duties and responsibilities as Lead Center for the CGIAR Research Program for Integrated Systems for the Humid Tropics (CRP 1.2) operations, and are as dynamic as the environment in which IITA and CRP1.2 operates. Together they represent the potential for loss resulting from external events, human factors or inadequate or failed internal policies, processes or systems.

To these ends, the Board has adopted a risk management policy and risk mitigation practices, that have been communicated to all staff, that include a risk framework by which IITA management identifies, evaluates and prioritizes risks and opportunities across the organization; assigns risk owners and develops risk mitigation strategies (including Internal controls) which balance benefits with costs; monitors the implementation of these strategies and reports semi-annually to the Audit Committee of the Board on results.

During 2012 the Board requested management to review and further develop existing risk management strategies and guidelines with a view to ensuring that they are further strengthened and that IITA has a comprehensive and robust risk management system in line with the newly refreshed strategy.

The Board will monitor and review progress on an on-going basis as the IITA management seeks to deepen the implementation of the risk management framework, focus attention on higher priority risks, and assess how and where the introduction of its new CRP 1.2 responsibilities impacts its risk profile. The Board notes that the effectiveness of risk management depends not only on the identification of the risks but the implementation of effective mitigation plans. The Board continues to assure itself that risk management is effective and sustained.

With regards to IITA's 2012 Financial Statements and the effectiveness of internal control specific to financial reporting, the Board notes management's assertion in its 2012 Management Letter of Representation (provided to the external auditors) and *Management's Statement of Responsibility for Financial Reporting* included as part of the annual Financial Statements.

Bruce Coulman
Chair, IITA Board of Trustees
March 6, 2013

Report of Management

The accompanying financial statements of IITA are the responsibility of management, and have been prepared in accordance with accounting policies and practices prescribed for international research centers seeking assistance from CGIAR as set out in Financial Guidelines Series, No. 2 - Accounting Policies and Reporting Practices Manual.

IITA maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded and transactions are properly executed. IITA's Internal Audit system provides ongoing evaluations of the adequacy, effectiveness, and adherence to management's established policies and procedures. The Board of Trustees exercises its responsibility for these financial statements through its Audit Committee.

The Audit Committee, composed of Board of Trustees members who are not officers of the Institute, meets with the independent auditors, management, and internal auditors periodically to discuss internal accounting controls, auditing, and financial reporting matters. The Committee reviews, with the independent auditors, the scope and results of the audit effort.

The accompanying report is based on an audit by the independent accounting firm of Ernst & Young.

REPORT OF THE INDEPENDENT AUDITORS TO THE TRUSTEES OF INTERNATIONAL INSTITUTE OF TROPICAL AGRICULTURE

Report on the Financial Statements

We have audited the accompanying financial statements of International Institute of Tropical Agriculture, which comprise the Statement of Financial Position as at 31 December 2012, the Statement of Activities and Statement of Cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Managements' Responsibility for the Financial Statements

The management is responsible for the preparation and fair presentation of these financial statements in accordance with policies and practices prescribed for International research center seeking assistance from consultative Group on International Agricultural Research (CGIAR) as described on page 2.

Auditors' Responsibilities

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements, and plan and perform the audit to obtain reasonable assurance whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of International Institute of Tropical Agriculture as at 31 December 2012, and of its surplus and cash flows for the year then ended in accordance with CGIAR Accounting Policies and Reporting Practices Manual.

International Institute of Tropical Agriculture
Notes to the Financial Statements
31 December 2012

1. Charter of Incorporation

The International Institute of Tropical Agriculture (IITA) is a private, autonomous, not-for-profit, scientific and educational institute chartered under the laws of Nigeria by Decree number 32 dated July 1967, to engage in research on resource and crop management and the improvement of selected food crops in sub-Saharan Africa.

In 2011, the CGIAR introduced a new programmatic-based approach to doing research through CGIAR Research Programs. Donors to CGIAR, represented by the Fund Council, approved the creation of sixteen CGIAR Research Programs, each being led by a designated Center (Lead Center). The Lead Center is responsible for implementing the program, along with other Centers and Partners, through a Program Implementation Agreement (PIA) with the Consortium and Program Participant Agreement (PPA) with other Participants. IITA is the Lead Center of CGIAR Research Program on Integrated Systems for the Humid Tropics.

2. Summary of Significant Accounting Policies

IITA's financial statements, expressed in U.S. dollars, are prepared on the basis of accounting practices prescribed for international agricultural research centers seeking assistance from CGIAR - Financial Guidelines Series No. 2. The CGIAR is an international association sponsored by the World Bank, the Food and Agriculture Organization of the United Nations, and the United Nations Development Programme. CGIAR prescribes accounting practices which conform with internationally accepted accounting principles for not-for-profit organizations.

(a) Restatement of Foreign Currency Accounts

IITA's financial statements are expressed in U.S. dollars. Transactions in other currencies are recorded in U.S. dollars at the rate of exchange prevailing on the date of the transaction.

Assets and liabilities denominated in foreign currencies are adjusted at the prevailing exchange rate on the date of the statement of financial position. Gains and losses arising from restatement of accounts are credited or charged to operations.

(b) Property and Equipment

Property and equipment are shown at acquisition cost less accumulated depreciation. Acquisition cost represents the purchase price of the item plus freight, insurance, and handling charges.

Expense incurred for repairs of an existing property or equipment that increases the estimated life, the capacity or operating efficiency of an asset, is capitalized, if the amount is US\$500 or above. Cost of normal repairs and maintenance of an existing property or equipment is treated as a current operating expense.

Depreciation of property and equipment is computed on straight-line basis over the expected useful lives of the assets as follows

Infrastructure	40 years
Laboratory and scientific equipment	6 years
Furniture and fixtures	6 years
Vehicles	5 years
Computer equipment	3 years
Powerhouse	25 years

In compliance with CGIAR financial guidelines, the Institute continued to implement a no asset, no depreciation policy. Only property and equipment which were acquired during the year (with the title passing to the Institute) or transferred to the Institute via donations were capitalized and subjected to depreciation from the month the asset was placed in operation.

Property and equipment acquired through the use of restricted grants are recorded as assets, and are fully or 100 percent expensed, and are charged directly to the appropriate restricted project in the same year of acquisition.

(c) Inventories

Inventories of consumable stores are stated at cost, less provision for obsolescence, or net realizable value, whichever is lower. Cost represents the purchase price of the item plus freight and handling charges.

(d) Severance Benefits

Seniority premiums, to which regular employees are entitled upon termination of employment, are based on the length of service to the Institute and commence after one year's employment. Charges relating to these payments are made against revenues in the year in which the benefit accrues to the employees.

(e) Revenue Recognition

Unrestricted Grants

Unrestricted grants are recognized in full as revenue in the year specified by the donor. If the pledge is cancelled in a subsequent financial period it is written off against revenues of the year in which it is cancelled.

Unrestricted grant revenue arises from the unconditional transfer of cash or other assets to the Institute.

Restricted & CRP Grants

Restricted grants are received in support of specified projects or activities mutually agreed upon by the Institute and donors. Restricted grants, which in certain instances are for periods of more than one year, are recognized as revenue to the extent of expenses. Funds received in excess of expenses incurred during the year are classified as "Accounts Payable - donors", while shortfalls of funds received to expenses are classified as "Accounts Receivable - donors" in the Statement of Financial Position. Provision is made in the financial statements for shortfalls of funds received to expenses where collection is considered doubtful. In addition, a general provision on total receivables is made based on past experiences, and consideration of other relevant factors.

Restricted and CRP grants are recognized as revenue upon fulfillment of the donor-imposed conditions.

According to Advisory Note issued by CGIAR

Consortium Office in January 2013, the Lead Center of a CGIAR Research Program is required, through the signed Program Implementation Agreement, to include in its Statement of Activity expenses incurred (and funded through Windows 1 and 2 Grants) by the subcontracted Centers and Partners, and the corresponding revenue. These expenses (and revenue) funded from Window 3 and Bilateral Grants of CGIAR Research Program participating partners are not reported in the Statement of Activity of the Lead Center.

Challenge Program Grants

Challenge Programs are a means for the CGIAR system as a whole to take on global challenges in cooperation with a wide range of partners.

Grants, which in certain instances are for periods of more than one year, are recognized as revenue to the extent of expenses incurred. Challenge Program grants are recognized as revenue upon fulfillment of the partner-imposed conditions.

Grants-in-kind

These are recorded at the fair value of the assets (or services) received or promised, or the fair value of the liabilities satisfied.

(f) Commitments

While these financial statements are prepared on the accrual basis of accounting, in compliance with Generally Accepted Accounting Principles (GAAP), Management controls the day-to-day activities of the Institute via commitment accounting.

The net difference on the Statement of Activity between commitment and accrual accounting for the years ended 31 December 2012 and 2011 is as follows:

	2012	2011
	(\$'000)	(\$'000)
Operating Commitment:		
End of Year	613	252
Beginning of Year	(252)	(736)
Increase/(Decrease) in Operating Commitments	361	(484)

(g) Indirect Cost Recovery

The indirect cost recovery represents the overhead cost recovered from the restricted projects based on rates agreed and as stated in each project document with donors. Calculation of indirect cost recovery rate is based upon CGIAR guidelines issued in August 2001 and revised in December 2008 (Financial Guidelines Series, No. 5). The revised approach, fully adopted by IITA, draws upon activity-based costing (ABC principles).

3(a). Cash and Cash Equivalents

Cash and cash equivalents comprise cash on hand, balances with banks, and short term, highly liquid investment that are readily convertible to known amounts of cash with original maturity periods of three months or less, and which are subject to insignificant risk of changes in value.

Cash and cash equivalents as at 31 December consisted of the following:

	2012 (\$'000)	2011 (\$'000)
Cash on Hand	786	813
Banks and Short-term Deposits	13,339	25,405
	14,125	26,218

3(b). Investments

Current investments represent term deposits in banks that are readily convertible to known amounts of cash with original maturities of more than three months but not exceeding six months. Current investments are carried at the lower of cost and fair value, with any resultant gain or loss recognized in the Statement of Activity.

The non-performing investment in medical receivables had been written off following approval of the Board. The total value of the investment written off during 2012 is \$14.782 million (IPA - \$5 million and ARS - \$9.782 million).

The Institute, however, continues its effort towards recovering the principal and interest amounts through the appropriate US Government Agencies.

Current investments as at 31 December consisted of the following:

	2012 (\$'000)	2011 (\$'000)
Bank Deposits (of 180 days, or less)	5,118	6,809
Medical Receivables (in IPA and ARS)	-	14,885
	5,118	21,694

4. Accounts Receivable

Account receivables from donors consist of unreleased balances of approved grants and expenses advanced at 31 December, and are classified as follows:

	2012 (\$'000)	2011 (\$'000)
(a) Due from Donors		
Unrestricted	3,820	1,087
CGIAR Research Program Windows 1 & 2	7,341	683
CGIAR Research Program Window 3	296	-
Bilateral	2,280	1,578
Challenge Programs	364	406
	14,101	3,754
Provision for Non-Collectibles	(1,435)	(886)
	12,666	2,868

	2012 (\$'000)	2011 (\$'000)
(b) Others		
Advances to Staff	517	354
Other CGIAR Centers	1,531	451
	2,048	805

5. Inventories

Inventories of consumable stores, which are stated at cost less provision for obsolescence, consisted of the following at 31 December:

	2012 (\$'000)	2011 (\$'000)
Stores on Hand	2,268	2,142
Allowance for Obsolescence	(1,802)	(1,787)
	466	355
Stores in Transit	204	72
	670	427

6. Prepaid Expenses

These comprise imprests and advances to overseas agents for purchases.

7. Property and Equipment

	Expressed in US\$ thousands

Other Payable (Trade Creditors)	4,199	4,017
Accruals and Provisions	251	181
	9,820	7,886

11. Net Assets

Net assets are the residual interest in the Institute's assets remaining after liabilities are deducted. These are classified as follows:

(a) Undesignated net assets

That part of net assets not designated by Institute's Management for specific purposes.

(b) Designated net assets

That part of net assets designated by Institute's management for specific purposes.

- *Designation for future acquisition/replacement of property and equipment*
- *Designation of net investment in property and equipment*

Portion of the unrestricted net assets designated to reflect net investment in property and equipment.

The following is a summary of net assets for the years ended 31 December 2012 and 2011:

	2012 (\$'000)	2011 (\$'000)
Undesignated	3,660	7,382
Designated:		
Acquisition and replacement of property and equipment	179	10,758
Institutional stability and research for dev. programs	1,500	1,500
Net investment in property and equipment	12,220	10,170
	13,899	22,428

12. Other Revenues and Support

	2012 (\$'000)	2011 (\$'000)
Interest income (on investment)	875	526
Gain on disposal of fixed assets	109	45
	984	571

13. Expenses

Program related expenses

Program related expenses are expenses incurred by main research, research support, training, and information services as described below.

Research Programs:

Cover expenses on research for development in sub-Saharan Africa.

Research Support Programs:

Include genetic resource and biometrics units, farm operations, plant growth facilities, postharvest engineering, analytical laboratory, and research management.

Training

Costs include training offices, fellowships, workshops, seminars, allowances to trainees and training-related travel.

Information Services

Cover the costs of publication of annual reports and technical bulletins, translation and printing of various public information activities and knowledge management service.

Program related expenses incurred as of 31 December were as follows:

	2012 (\$'000)	2011 (\$'000)
Research - programs and support	60,895	36,706
Training	1,899	1,915
Information Services	332	514
	63,126	39,135

Management and general expenses

Management and general expenses in the accompanying statements of activity consist of:

General Administration

Covers the costs of board of trustees, director general's office, administration, internal audit, finance, human resources, personnel, and purchasing departments.

General Operations

Include expenses on physical plant services, utilities, communications, security, catering, and general services.

Management and general expenses incurred as of 31 December were as follows:

	2012	2011
	(\$'000)	(\$'000)
General Administration	2,695	3,715
General Operations	3,276	3,860
	5,971	7,575

14. Staff numbers

The number of employees in the Institute as at 31 December 2012 was 116 internationally recruited staff and 958 support staff (2011: 102 internationally recruited staff and 881 support staff).

15. Comparatives

Where necessary, comparative figures have been adjusted to conform to changes in presentation in the current year.

**International Institute of Tropical Agriculture
Schedule of Direct and Indirect Cost Rates
for the year ended 31 December 2012**

	Expressed in US\$ thousands	
	2012	2011
Direct Operating Expenses		
Research Programs	58,878	40,294
Research Support	2,934	3,392
Research Management / Operations	1,314	1,228
Subtotal	63,126	44,914
Less: Collaborators - CGIAR Centers 1/	(8,593)	-
Less: Indirect Costs Recovery	(8,028)	(4,478)
Total	46,505	40,436
Indirect Operating Expenses		
Management and Administration	4,783	5,925
Common Sustenance Services	1,188	349
Total	5,971	6,274
Total Operating Expenses	52,476	46,710
Direct / Total Expenses	88.62%	86.57%
Indirect / Total Expenses	11.38%	13.43%
Indirect / Direct Expenses 2/	14.84%	17.52%

1/ Non-CGIAR Partners' collaboration costs are included in indirect costs in line with Advisory Note issued by CGIAR Consortium Office; however, logically this computation ought to be impacted by funds executed by Non-CGIAR Partners. Thus, if Non-CGIAR Partners' costs are excluded from the computation, the indirect cost rate is 18.34% (2011: 20.64%).

2/ Includes 2 percent system administrative costs.

IITA is a member of the CGIAR Consortium
