

## ATA-DRC registers quick wins in three months of start-up

After only three months of implementing the Agenda for the Transformation of Agriculture in the Democratic Republic of Congo (ATA-DRC), the program has registered multiple successes, giving the government and people of the country much to celebrate. [IITA](#) Director General, Dr [Nteranya Sanginga](#), highlighted these wins during his recent visit to multiple program sites in DRC. [to page 3](#)
